Katrina Armstrong, MD

Dean of the Faculties of Health Sciences and the Vagelos College of Physicians and Surgeons

Executive Vice President for Health and Biomedical Sciences, Columbia University

Congratulations to our VP&S faculty who received promotions or honors during academic year 2022-2023!

VP&S is a remarkable place because of its remarkable people. Our faculty have an incredible propensity for healing, educating, driving discovery and helping others. The college's ability to advance human health, serve our communities and prepare the next generation to lead relies on your unparalleled ingenuity, empathy and dedication to our shared missions. Today, we celebrate faculty who have been recognized for their outstanding accomplishments and for being emblematic of what makes VP&S so special.

Academic promotion recognizes the accomplishments of our faculty in one or more of our core missions:

- Transformative research that spans the continuum from basic laboratory studies to clinical and population-based studies
- Extraordinary care of our patients
- Innovative education that prepares the next generation of physicians and scientists
- Service to our communities in Washington Heights, Northern Manhattan and beyond

We also celebrate well-deserved external honors earned by our faculty over the past academic year. All of you have gone above and beyond to bring honor and recognition to this place so today we celebrate you. Today is an expression of how faculty at the Vagelos College of Physicians and Surgeons continue to inspire students, trainees and colleagues as we build on our legacy of excellence and shape the future of medicine.
